TRANSMITTAL OF THE GROUP 12 RECONNAISSANCE LEVEL CHARACTERIZATION REPORT (RLCR) – DWF-019-01

Provided for your review and approval is the enclosed subject report for the Group 12, Type 1 facilities (i.e., 452, S452, T428B, T452A, T452B, T452D, T452E, T452F and T452G). This report characterizes the physical, chemical and radiological hazards associated with these facilities, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of results.

Results of our characterization effort indicate that no radiological and chemical hazards exist in excess of the RLCP guideline values and no significant physical hazards are present. Based upon this RLCR and subject to concurrence by the CDPHE, Group 12 buildings are considered to be Type 1 facilities.

Upon your approval, please forward this report to the CDPHE for their review and concurrence. Please notify Kaiser-Hill, within the 20 days required per the DOE/K-H contract, when you transmit this document to CDPHE. If you have any questions, don't hesitate to call me or Duane Parsons at extension 6458.
